

AI ELITE TEAM: 5 ROLE-BASED GPTS

TURN AI INTO SPECIALISTS THAT RESEARCH, PLAN, WRITE, BUILD, AND SELL.

These five role-based Custom GPTs are your AI Elite Team. Use them in sequence with the **3-Day Launch Blueprint** to go from problem discovery to a one-page MVT and a 30/60/90 sales plan—fast. They're specialists, not generic chatbots: you bring your niche and constraints; they handle research, strategy, copy, build, and sales ops. Here's how that plays out:

Example: Testing a "No-Meeting Client Kickoff Kit" for freelancers?

- The Researcher proves it's a real pain with evidence and trend data.
- The Strategist chooses the highest-leverage MVT (e.g., checklist PDF).
- The Copywriter drafts the one-page and posts.
- The App & Web Builder ships the page in an afternoon.
- The Sales Ops Manager lays out a 30/60/90 plan to convert attention into revenue.

Use these like a real team: pick the right role for the job, run the prompts, and iterate fast.

Researcher GPT

Surfaces proof of customer problems, market size/growth, competitors, risks, and the simplest test to run this week. Ideal for Day 1 discovery and validation.

Open
Researcher GPT

Strategist GPT

Turns research into a sharp plan: names your concept, selects the lead magnet or waitlist, ranks options by speed/cost, and defines the MVT brief.

Open
Strategist GPT

Content Copywriter GPT

Writes the hook, bullets, one-page landing, emails, and social posts—with iterations to cut fluff and increase specificity and urgency. Your Day 2 workhorse. Use on Day 2 (and for channel ideas on Day 3).

Open
Copywriter GPT

App & Web Builder GPT

Transforms your copy + direction into a clean, mobile-ready one-pager for your MVT. Fast, simple, no over-building. Use mid-Day 2

Open Web
Builder GPT

Marketer (Sales Ops Manager) GPT

Maps your 30/60/90 conversion roadmap, outreach scripts, KPIs, and weekly priorities so your Day 3 test leads to real conversations and revenue.
